#### **Report Highlights:**

Mexico's Ministry of Health is responsible for regulating certain food and agricultural products imported into the country. This report lists those products by Harmonized Tariff Code.

Includes PSD Changes: No Includes Trade Matrix: No Trade Report Monterrey ATO [MX4] [MX] This report was prepared by the Agricultural Trade Office of the USDA/Foreign Agricultural Service in Monterrey, Mexico, for U.S. exporters of domestic food and agricultural products. While every possible care was taken in the preparation of this report, information provided may not be completely accurate either because policies have changed since its preparation, or because clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their foreign customers, who are normally best equipped to research such matters with local authorities, before any goods are shipped. FINAL IMPORT APPROVAL OF ANY PRODUCT IS SUBJECT TO THE IMPORTING COUNTRY'S RULES AND REGULATIONS AS INTERPRETED BY BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY.

This report summarizes the imported food and agricultural products regulated by Mexico's Ministry of Health (SALUD). For a comprehensive overview of Mexico's food and agricultural import regulations, and required certificates, please see the following reports: Mexico FAIRS Country Report MX8314, and Mexico Export Certificate FAIRS Report, MX8503.

SALUD issues regulations to improve and protect public health. Imports of food and beverages for human consumption are subject to compliance with sanitary regulations dictated by SALUD. The Federal Commission for the Prevention of Sanitary Risks (COFEPRIS) <a href="https://www.cofepris.gob.mx">www.cofepris.gob.mx</a>, an agency within SALUD, is responsible for the control and surveillance of food and beverages, food supplements, tobacco, plant nutrients, toxic or dangerous substances, biotechnology products, and pesticides.

On September 27, 2007, in coordination with the Ministry for the Economy (SE), SALUD published the "Agreement that Establishes the Classification of Products whose Import or Export is Subject to Sanitary Regulations from the Ministry of Health". This agreement lists the tariff codes of products subject to SALUD regulation and specifies which products require either a Sanitary Import Permit (Spanish: *Permiso Sanitario Previo de Importación*) or a Sanitary Import Notification (Spanish: *Aviso Sanitario de Importación*), to be included in the import documentation submitted by the customs broker. A list of the tariff codes for imported products under this regulation is below.

Article 1, Section A, of the aforementioned regulation states that COFEPRIS will issue a *Sanitary Import Permit* for products classified under the Harmonized Tariff Codes in Table 1, when these products are imported and intended for human consumption or will be used in the further processing/manufacturing of products intended for human consumption.

Article 2, Section A, states that COFEPRIS will require a *Sanitary Import Notification* for imported products classified under the Harmonized Tariff Codes in Table 2, when intended for human consumption or to be used in further processing/manufacturing of products intended for human consumption.

The importer of products subject to these regulations must be registered with SALUD and is responsible for securing all the necessary documentation and information. The main documents an importer must submit to apply for SALUD permits are a health certificate or a
